ACTA ASTRONAUTICA

JOURNAL OF THE INTERNATIONAL ACADEMY OF ASTRONAUTICS

IAA PUBLICATION COMMITTEE

Chairman: G. HAERENDEL (F.R.G.)

Members: W. I. AXFORD (U.K.), M. C. M. BIGNIER (France), L. CARTER (U.K.), J.-M. CONTANT (France), S. DOYLE (U.S.A.), C. DE JAGER (Netherlands), E. M. GALLOWAY (U.S.A.), A. I. GRIGORIEV (U.S.S.R.), J. J. HARFORD (U.S.A.), H. L. N. JORDAN (U.S.A.), K. E. KLEIN (F.R.G.), J.-P. MAREC (France), L. G. NAPOLITANO (Italy), A. L. SLOTKIN (U.S.A.)

EDITOR-IN-CHIEF
JEAN-PIERRE MAREC (ONERA, France)

CO-EDITORS
G. G. CHERNYI (U.S.S.R.) J. GREY (U.S.A.) S. SAITO (JAPAN)

ASSOCIATE EDITORS
M. BIGNIER (France) System and Mission; C. DE JAGER (Netherlands) Basic Sciences; E. GALLOWAY (U.S.A.) Social Sciences; O. GAZENKO (U.S.S.R.) Life Sciences; R. E. LO (F.R.G.) Propulsion; P. SANTINI (Italy) Materials and Structures; N. X. VINH (U.S.A.) Astrodynamics

GUEST EDITOR FOR NOTES
L. G. NAPOLITANO (Italy)

GUEST EDITORS FOR EX MUNDO ASTRONAUTICO
J.-M. CONTANT (France)
A. L. SLOTKIN (U.S.A.)

MANAGING EDITOR
M. SALMON (France)

Aims & Scopes

Acta Astronautica is the journal of the International Academy of Astronautics. It publishes original contributions in all fields of basic, engineering, life and social space sciences and of space technology related to: (1) the peaceful scientific exploration of space; (2) its exploitation for human welfare and progress; (3) the conception, design, development and operation of the systems, space-borne and Earth-based, needed to accomplish the foregoing two tasks.

Acta Astronautica will publish: (a) normal issues containing contributed papers; (b) issues dedicated to Astronautical Congresses, I.A.A. Symposia or to any other topic of scientific international relevance; (c) Transactions of the Academy, in a section containing scientific notes communicated by or through Academy members.

Publishing Office: Journals Production Unit, Pergamon Press plc, Hennock Road, Marsh Barton, Exeter, Devon EX2 8NE, England (*Tel.* Exeter (0392) 51558; *Fax* (0392) 425370), *Subscription and Advertising Offices:* Rest of the World, Pergamon Press plc, Headington Hill Hall, Oxford OX3 0BW, England; North America, Pergamon Press Inc., Maxwell House, Fairview Park, Elmsford, NY 10523, U.S.A.

Publication Frequency: 13 issues per annum in 2 volumes (Vol. 22 in one complete volume and Vol. 21 in monthly issues). Annual institutional subscription rate (1991) DM 2250.00; 2-year institutional rate (1991/92) DM 4275.00; personal subscription rate for those whose library subscribes at the regular rate is available on request. Special rates for I.A.A. members and corresponding members are available on request. Subscription rates for Japan include despatch by air and prices are available on application. Prices are subject to change without notice.

Back Issues: Back issues of all previously published volumes, in both hard copy and on microform are available direct from Pergamon Press offices.

It is a condition of publication that manuscripts submitted to this journal have not been published and will not be simultaneously submitted or published elsewhere. By submitting a manuscript, the authors agree that the copyright for their article is transferred to the publisher if and when the article is accepted for publication. However, assignment of copyright is not required from authors who work for organizations which do not permit such assignment. The copyright covers the exclusive rights to reproduce and distribute the article, including reprints, photographic reproductions, microform or any other reproductions of similar nature and translations. No part of this publication may be reproduced, stored in a retrieval system or transmitted in any form or by any means, electronic, electrostatic, magnetic tape, mechanical, photocopying, recording or otherwise, without permission in writing from the copyright holder.

Photocopying information for users in the U.S.A. The Item-fee Code for this publication indicates that authorization to photocopy items for internal or personal use is granted by the copyright holder for libraries and other users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service provided the stated fee for copying, beyond that permitted by Section 107 or 108 of the United States Copyright Law, is paid. The appropriate remittance of $3.00 per copy per article is paid directly to the Copyright Clearance Center Inc., 27 Congress Street, Salem, MA 01970.

Permission for other use. The copyright owner's consent does not extend to copying for general distribution, for promotion, for creating new works, or for resale. Specific written permission must be obtained from the publisher for copying.

The Item-fee Code for this publication is: 0094-5765/90 $3.00 + 0.00

Cover design by F. J. Malina

♾™ The paper used in this publication meets the minimum requirements of American National Standard for Information Sciences—Permanence of Paper for Printed Library Materials, ANSI Z39.48-1984.

List of Contents

NUMBER 1

Low altitude tethered Mars probe
E. C. Lorenzini, M. D. Grossi and M. Cosmo 1

Tracking accuracy evaluation for data relay and user satellites
S. Pallaschke and J. Housden 13

Annihilation localization in gas-core and plasma-core annihilation rocket engines
David L. Morgan Jr 23

Advanced technology for space communications and tracking systems
Kumar Krishen 29

SYCOMORES concept
J. F. Dulck, R. Larregola, G. Mariet and D. Rouffet 45

Autonomy and on-board mission management aspects for the Cassini Titan Probe
K. Schilling and W. Flury 55

NUMBER 2

SETI POST DETECTION PROTOCOL

A Selection of Papers Presented at the 37th Congress of the International Astronautical Federation, Innsbruck, Austria, 4–11 October 1986 and the 38th Congress of the International Astronautical Federation, Brighton, U.K., 10–17 October 1987

Preface
Jill Tarter and Michael Michaud xi

Part I—Receipt and Verification of an ETI Signal

Risk and value analysis of SETI
John Billingham 69

SETI false alerts as "laboratory" tests for an international protocol formulation
Jean Heidmann 73

Signal verification in the real world: when is a signal not a signal?
Peter B. Boyce 81

The first two steps after the signal arrives: verify and tell the world
Peter B. Boyce 85

Parts II—The Process of Announcing the Detection of an ETI Signal

Announcing the first signal: policy aspects
J. M. Logsdon and C. M. Anderson 89

Signals from ETI detected—what next?
Zbigniew Paprotny 93

A critical examination of factors that might encourage secrecy
Allen Tough 97

Diplomatic and political problems affecting the formulation and implementation of an international protocol for activities following the detection of a signal from extraterrestrial intelligence
Allan E. Goodman 103

Part III—The Impact of the Announcement of an ETI Signal

Contact: releasing the news
Roberto Pinotti 109

The impact of contact
Ben Finney 117

Part IV—Legal Principles Relating to Contact and Communication with ETI

International law implications of the detection of extraterrestrial intelligent signals
Vladimir Kopal 123

XII Tables for researchers on extraterrestrial intelligence
Aldo Armando Cocca 127

Discovery of ETI: terrestrial and extraterrestrial legal implications
Ernst Fasan 131

Diplomacy and the search for extraterrestrial intelligence (SETI)
Allan E. Goodman 137

Basic elements of an international terrestrial reply following the detection of a signal from extraterrestrial intelligence
G. C. M. Reijnen 143

Part V—Who Will Speak for the Earth?

Who will speak for Earth? Possible structures for shaping a response to a signal detected from an extraterrestrial civilization
Donald Goldsmith 149

Part VI—Approved Protocol

Declaration of principles concerning activities following the detection of extraterrestrial intelligence 153

NUMBER 3

Relativistic interstellar flight and instantaneous noise energy
Claudio Maccone 155

Dynamical analysis of a flexible manipulator arm
Madeleine Pascal 161

Unsteady thermocapillary flows and free surface oscillations in reduced gravity environments
Chun-Liang Lai 171

Degradation of the lunar vacuum by a moon base
Geoffrey A. Landis 183

Interplanetary scintillation network for 3-dimensional space exploration in India
R. V. Bhonsle, S. K. Alurkar, A. D. Bobra, K. S. Lali, N. S. Nirman, P. Venat, A. K. Sharma and P. Janardhan 189

Mars Global Dynamics Analysis (MAGDA) Project
Ph. Hartl, W. Schäfer and J. B. Zieliński 197

Bringing the excitement of space to the people of the world: an International Space Year initiative
Paul D. Maley 201

ACADEMY TRANSACTIONS NOTE
Complete footprint of lifting reentry vehicles
Fu-Kuo Hsu, Te-Son Kuo and Jeng-Shing Chern 207

EX MUNDO ASTRONAUTICO
List of Reviewers 211

NUMBER 4

Analytic solution of perturbed motion in near-circular orbit due to air drag from a rotating oblate atmosphere with day-to-night density variation
Jean Albert Kechichian 213

The X-20 space plane: past innovation, future vision
Terry L. Sunday and John R. London III 223

NASA launch vehicles: the next 20 years
Darrell R. Branscome and Terrence G. Reese 243

U.S. Space Station Freedom: orbital assembly and early mission opportunities
David C. Wensley 255

Biological and cognitive determination of the gravitational reference frame
Heinz-Gunther Tittmar 267

Relationships between orientation, movement and posture in weightlessness: preliminary ethological observations
Carole Tafforin 271

ACADEMY TRANSACTIONS NOTE
East–West cooperation in manned spaceflights. Why?
J.-L. Chrétien 281

NUMBER 5

Offset control of tethered satellite systems: analysis and experimental verification
V. J. Modi, P. K. Lakshmanan and A. K. Misra 283

Experimental validation of GPS–INS–STAR hybrid navigation system for space autonomy
Toru Tanabe and Masatoshi Harigae 295

Effect of *g*-jitters on the stability of rotating bubble under microgravity environment
R. J. Hung, C. C. Lee and F. W. Leslie 309

Facilities for microgravity combustion research
Kurt R. Sacksteder 323

Experiments on crystallization of semiconductor materials, eutectic alloys and crystal growth from water solution in microgravity
L. L. Regel, O. V. Shumaev, I. V. Videnskiy, I. M. Safonova, A. A. Vedernikov, I. V. Melikhov, V. F. Komarov, A. I. Ivanov and Suleiman Suleiman 331

ACADEMY TRANSACTIONS NOTE
Contribution of Ch. S. Draper to the knowledge of vibratory phenomena in internal combustion reciprocating and jet propulsion engines
N. Manson 349

EX MUNDO ASTRONAUTICO
In Memoriam—Hermann Oberth
August F. Staats 355

NUMBER 6/7

THE NEXT 40 YEARS IN SPACE

Selected papers presented at the
40th Congress of the International Astronautical Federation
Torremolinos/Malaga, Spain, 7–13 October 1989

Satellite reliability requirements: effect of transportation system, sparing and maintenance strategies
Joel S. Greenberg 357

NASA Telescience Testbed Pilot Program
B. M. Leiner and D. N. Rasmussen 367

The development of high performance flight computers for the European space programmes
J. Schmitt, R. Creasey, F. Gomez-Molinero and J. Lafay 375

Simulation by personal workstation for Man–Machine interface design
S. Berthier, R. Miginiac and W. Frei 385

The SPOT image quality: 3 years of results with SPOT 1; the anticipated SPOT 2 performance
G. Begni and P. Henry 391

Engineering aerobrakes for exploration missions
Gordon R. Woodcock and Brent Sherwood 397

Knowledge based system for Hermes orbital operations ground support
P. Sengenes, J. Amalric, F. Paoli, D. de Gabai and S. Pouget 405

Review of the GaAs solar cell Italian National Programme
F. Svelto, C. Flores, F. Paletta, D. Passoni, C. Signorini and E. Rossi 421

Development of small centrifugal pumps for an electric propellant pump system
Göran Johnsson and Mikael Bigert 429

Method of fuel tank design development for future long-term space flights
V. U. Bezugly, N. E. Boitsun, I. N. Kozlov and A. S. Makarova 439

The liquid rocket booster as an element of the U.S. National Space Transportation System
Paul H. Bialla and Michael C. Simon 449

On-orbit vibration testing for space structures
Jay-Chung Chen and James L. Fanson 457

Dynamical systems and stability: the improvements given by the near-resonance theorem
C. Marchal 467

A magnetic attitude control system for precision pointing of the rolling GP-B spacecraft
Bradford W. Parkinson and N. Jeremy Kasdin 477

Future experiments and improved service system for automated MAUS payloads
G. H. Otto, H.-W. Gronert and J. Döpkens 487

Free surface fluid behavior in a two-dimensional container with arbitrary configuration (computer simulation and experiment using drop tower)
Mitsuru Ohnishi, Sachio Ogiwara, Shoichi Yoshihara and Hisao Azuma 495

Astromag: particle astrophysics magnet facility for Space Station Freedom
W. Vernon Jones 505

High power space TWTA development activities for new broadcasting satellites
Yoji Morishita, Hitoshi Hoshino, Hitoshi Nakagawa, Toshimoto Makino, Sadanori Hamada, Hideichi Kubo, Tatsuya Koike, Kenji Takahashi and Yoshitomo Iwanami 513

Unilateral centrifugation of the otoliths as a new method to determine bilateral asymmetries of the otolith apparatus in man
J. Wetzig, M. Reiser, E. Martin, N. Bregenzer and R. J. von Baumgarten 519

The new Space Shuttle Transportation System (STS): problem, performance, supportability, and programmatic trending program
J. L. Crawford and G. A. Rodney 527

NUMBER 8

Determining ground trace crossovers for multiple spacecraft
Robert Chase and W. Bruce Maguire 535

Wave propagation in the Tether Elevator/Crawler System
Enrico C. Lorenzini and Mario Cosmo 545

Response of a viscous liquid column to various pitch-excitations
Helmut F. Bauer 553

Waverider configurations according to thin shock-layer theory
Hamdi T. Hemdan 571

Atmospheric density remote sensing of mesosphere and thermosphere to be used for spacecraft design by adopting VHF radar and HF Doppler sounder at low latitude West Pacific site during winter
R. J. Hung, C. C. Lee and A. J. Chen 583

Renal excretion of water in men under hypokinesia and physical exercise with fluid and salt supplementation
Yan G. Zorbas, Youri F. Federenko and Mitsui N. Togawa 599

EX MUNDO ASTRONAUTICO
In Memoriam—Rudolf Pešek
Vladimír Kopal 607

In Memoriam—Walter Orr Roberts
John Firor 607

NUMBER 9

Hypersonic aircraft and inlet configurations derived from axisymmetric flowfields
Hamdi T. Hemdan 609

Pressure drop in fully developed, duct flow of dispersed liquid–vapor mixture at zero gravity
K. R. Sridhar, B. T. Chao and S. L. Soo 617

Unsteady thermocapillary flows and free surface oscillations
Chun-Liang Lai and Tian-Shiang Yang 629

The migration of droplets in a temperature gradient
G. Wozniak and J. Siekmann 641

Consort 1 flight results: a synopsis
Francis C. Wessling, Charles A. Lundquist and George W. Maybee 647

Medical considerations for extending human presence in space
C. S. Leach, L. F. Dietlein, S. L. Pool and A. E. Nicogossian 659

Cardiovascular deconditioning during weightlessness simulation and the use of Lower Body Negative Pressure as a countermeasure to orthostatic intolerance
Antonio Güell, Laurent Braak, Anne Pavy le Traon and Claude Gharib 667

Earth benefits from space life sciences
V. Garshnek, A. E. Nicogossian and L. Griffiths 673

EX MUNDO ASTRONAUTICO
In Memoriam—Ernst Trendelenburg
K. P. Wenzel 677

NUMBER 10

Dynamics of a field-sail spaceship
Giovanni Vulpetti 679

Spacecraft attitude dynamics: evolution and current challenges
V. J. Modi 689

The optimal LQG digital shape and orientation control of an orbiting shallow spherical shell system
Xing Guangqian and Peter M. Bainum 719

ACADEMY TRANSACTIONS NOTE
Pressure exponent and temperature sensitivity: comment on two previous articles
Robert L. Glick and Wm. Ted Brooks 733

NUMBER 11/12

Optimal trajectories for the aeroassisted flight experiment
A. Miele, T. Wang, W. Y. Lee and Z. G. Zhao 735

Optimal multiple-pass aeroassisted plane change
Nguyen X. Vinh and Der-Ming Ma 749

Dynamics and control of an orbiting flexible mobile manipulator
J. K. Chan and V. J. Modi 759

A new approach to controller design for microgravity isolation systems
A. Sinha, C. K. Kao and C. Grodsinsky 771

On the propagation of weak shock waves in a radiating gas flow over a curved wall
L. P. Singh and V. D. Sharma 777

JERS-1 development status
K. Yoneyama, T. Koizumi, T. Suzuki, R. Kuramasu, T. Araki, C. Ishida, M. Kobayashi and O. Kakuichi 783

Concepts for an export oriented lunar colony
Kent L. Miller 795

Mercury–Redstone: the first American man-rated space-launch vehicle
Bettye B. Burkhalter and Mitchell R. Sharpe 819

ACADEMY TRANSACTIONS NOTE
Macroscopic electrodynamic characteristics of disperse media
Yulij D. Shikhmurzaev 855
